

Stalk R

The Stalk R (Recessed Lens) is a Ø180mm large area downlight. The downlight only requires 50mm of ceiling void making it ideal for installations where space is tight.

The heatsink is made from die-cast aluminium which houses the LED module. The bezel of the downlight is machined from aluminium ensuring a constant high quality finish with no surface blemishes. The product is then retained in the ceiling by two sprung arms to allow for a quick and easy installation.
